## XR Series

### What input options are on the XR Series Monitors?

XR Series monitors have two input options.

- TRS 1/4 inch balanced input
- XLR balanced input

### Are XR Series Studio Monitors THX PM3 certified?

No, but if you are interested in THX PM3 certified studio monitors you can look at our HRmk2 Monitor Series.

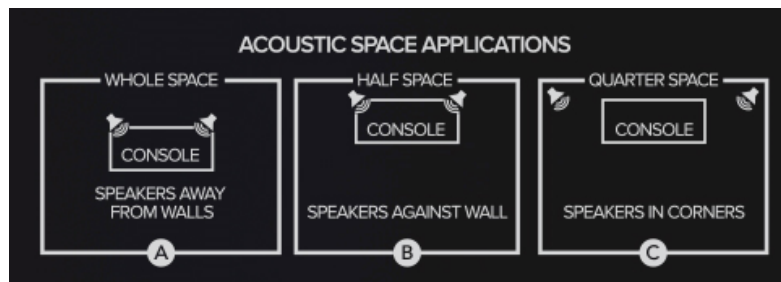

### What type of port design does the XR Series Studio Monitors use?

XR Series features the rear ported ELP™ Bass Reflex System engineered for zero turbulence to provide increased output capability and extended low-frequency response.

### Do the XR Series have any EQ presets for different studio monitor placements?

XR Series monitors includes Mackie's Acoustic Space Controls featuring three spatial settings for your particular studio monitor placement. This feature ensures you are listening accurately to the bass response of your mix.

- Whole Space (positioned away from the walls)
- Half Space (positions against the back wall)
- Quarter Space (positioned in a corner)

## Do the XR Series Studio Monitors have a universal power supply?

Yes, there is an AC select switch that allows either (100-120VAC 50-60Hz) or (220-240VAC 50-60Hz).

## Will XR Series Studio Monitors automatically turn off when they are not in use?

XR Series monitors feature an Eco-friendly auto turn-off / turn-on option that turns the power amplifiers on and off depending on the presence of absence of an input signal. A silent period greater than fifteen minutes activates the auto-off function and turns the monitor's amplifiers off. A minimum input signal level re-activates the auto-on functions and turns the amplifiers on.

## Can XR Series Professional Studio Monitors be mounted?

XR Series monitors have no mounting points. The speaker is designed to sit on the same desk or on studio monitor stands. They should not be wall or ceiling mounted with any hardware that requires connecting to the speaker enclosure with screws or nails.

## Do XR Series Studio Monitors come with any accessories?

Each XR Series monitor includes a large foam acoustic isolation pad that is custom fit to each model's dimensions. The isolation pads also have an insert to allow different angle configurations and a front lip to hold the monitor in place.

## Can you use XR Series Studio Monitors in a surround sound format?

Yes, XR Series monitors are perfect for post audio studios and Home Theater/ Multimedia applications. XR Series Monitors will work great in various surround sound formats such as 5.1 or 7.1.
